

DOUBLE WALLED PAPER CUPS INSULATED COLD SQUAT

Available in 12/16/22 oz.

Finally an insulated double-duty paper cup brand-able in up to 4 colors that performs as good as it looks! Made of the highest quality FDA approved paper and manufactured in the USA.

Unlike traditional single wall yogurt/shake cups ours has a layer of air between the inner and outer walls that provides a sturdy natural grip with almost no transfer of heat from hand to contents.

Frozen products stay frozen longer and toppings stay on top! Customers love the familiar shape and secure feel of a cup that never gets too hot or too cold.

Universal dome (with large, small, or no hole) or flat lids for 12-22 oz. available and sold separately.

Compliment your brand with a 4 oz. toppings-to-go cup too!
